

Study Conditions

Condition	Description
Control	
Ordinary Pose and Lighting	We ask the participant to pose as they ordinarily would for a photo, under the ordinary lighting in the room.
Lighting	
Low Lighting	We reduce the lighting in the room so that the participant's face is less visible.
Bright Lighting	We add light to illuminate the participant's face.
Expression	
Neutral	We ask the participant to have a neutral expression.
Smile	We ask the participant to smile.
Frown	We ask the participant to frown.
Open Mouth	We ask the participant to pose with their mouth open.
Squinted Eye(s)	We ask the participant to squint one eye, or both eyes.
Occlusion	
Face Covered by Hand	We ask the participant to partially cover their face with their hand.
Face Covered with Object	We ask the participant to partially cover their face with paper or a piece of cardboard.
Face Covered by Stocking	We ask the participant to cover their head with a translucent stocking.
Face Covered by Mask	We ask the participant to cover their head with a mask.
Face Covered with Photo	We ask the participant to cover their face by holding up a printed image of another person.
Face Covered with Video	We ask the participant to cover their face by holding up a tablet, which displays a video of

	another person. The tablet will be pointed at the camera rather than the participant.
Props	
Glasses	We ask the participant to put on a pair of glasses.
Glasses and Mustache	We ask the participant to put on a glasses and mustache prop.
Wig	We ask the participant to put on a wig with white hair.
Place Stickers	We ask the participant to place stickers on their face. These stickers have patterns that are not human interpretable and are designed to affect the facial analysis algorithms.
